

January 2026 Service Change Proposals – Public Comment Period

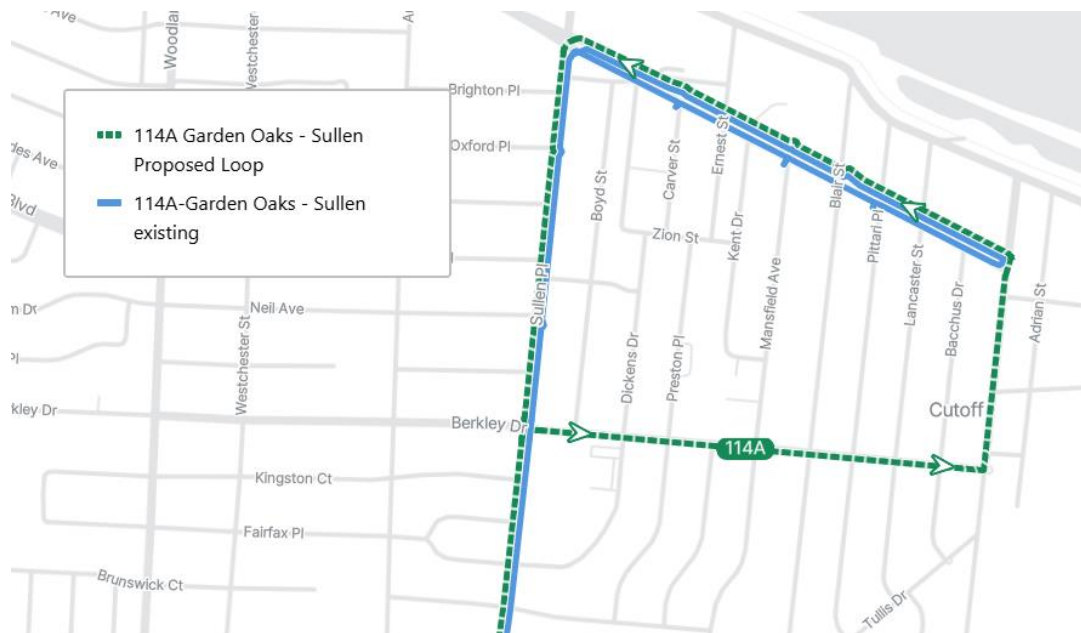

The Regional Transit Authority (RTA) is seeking public feedback on proposed route adjustments planned for the **January 2026 Service Change**. These changes are designed to improve access, reliability, and connectivity based on rider and operator feedback.

Proposed Adjustments

- **Route 202 Airport Express** – RTA proposes extending service down Poydras Street in the Central Business District and improving frequencies on the 202 Airport Express. These improvements would expand access to major destinations downtown, maintain access to the Main Library, and improve wait times for airport passengers.

Route 114A Garden Oaks – Sullen – RTA proposes resuming service through the Cutoff neighborhood via Berkley Drive, reinstating coverage to apartment complexes and residential areas previously served before 2021. The route would operate a counterclockwise loop while maintaining the existing layover at the Cutoff Recreation Center.

We Want to Hear From You!

RTA invites riders and community members to review these proposed changes and share feedback before they are finalized.

Public comments will be accepted through November 14, 2025.

Submit your feedback by email to comments@norta.com or by calling the **Ride Line** at **504-248-3900**.
