

# DISADVANTAGED BUSINESS ENTERPRISE (DBE) OPPORTUNITY CONFERENCE

## Renovations of the Historic Napoleon Avenue Facility

The **Regional Transit Authority (RTA)** is planning to renovate the historic Napoleon Avenue Facility. This project consists of renovating and upgrading the building to meet current standards and ADA compliance requirements.

To ensure that disadvantaged businesses have access to the economic opportunity this project affords, the RTA is hosting an Opportunity Conference to provide information on the project.

### DBE OPPORTUNITY CONFERENCE

For Disadvantaged Business Enterprises (DBE)

**Thursday, August 1, 2019**  
2:00 PM to 3:00 PM

**RTA BOARD ROOM**  
A. Phillip Randolph Building  
2817 Canal Street  
New Orleans, Louisiana

Please take advantage of this opportunity to get information about this project, as well as information about the DBE program and the procurement process. After this conference, there will be a Mandatory walk through site visit of the Historic Napoleon Avenue Facility for Prime Contractors.

If you have any questions or need additional information about the opportunity conference, please contact **Adonis C. Exposé, DBE Compliance Manager** at 504-827-8301.

## About the Historic Napoleon Avenue Facility

The Napoleon Avenue Facility is a historic building that was built in 1892 as a power station for the historic St. Charles Streetcar Line. It was later used as a training and storage facility. In 2005 the building was severely damaged during Hurricane Katrina, which triggered the need to plan for repairs and renovation of the facility. The scope of work will include structural repair of the front wall and miscellaneous exterior envelope repairs, environmental remediation of the roof, replacement of the roof and reinforcement of the roof structure, replacement of all windows and doors, mechanical, electrical and plumbing interior improvements, as well as landscaping, exterior fencing and parking lot improvements.
