Hurricane Preparedness Guide

Hurricane Season 2019
June 1 - November 30

Make a Plan

Now is the time to make your plan and get prepared.

- **Decide** whether to evacuate or shelter in place in advance of the storm. In the event of a mandatory evacuation, all residents and visitors must leave.
- **Create a network** of neighbors, friends and relatives to assist you in an emergency.
- **Inform your family and friends** of your plan and determine how you will maintain contact with one another.
- **Designate someone** in your support network to keep an extra key to your home, access your emergency supplies and medication, and to check in on you.
- **Stay in touch, stay informed.** Listen to your radio or TV, and keep aware of changes in a storm. Sign up for NOLA Ready Emergency Alerts. Text your zip code to 888777 or go to ready.nola.gov for more options.
- **Be realistic** about your ability to manage alone during and after a storm.
- **Do you have a service animal or pet?** Make a pet evacuation kit to include: carrier, copies of vaccination records, ID tag or microchip, collar, leash, bowls, medications, food, manual can opener, and photo of your pet. If you evacuate, take your pet with you.

To enroll in the Special Needs Registry, get information about evacuspots, or for help preparing for emergencies, call 311 or visit online at ready.nola.gov. Outside of Orleans Parish, call (877) 286-6431 (toll-free).

Create a List

Prepare for a loss of power when you won't have access to your cell phone or computer.

- Write a list of resources, contacts and important information: Phone numbers of friends and family members, primary care physician, pharmacist, and your local police/fire department.
- Collect and protect documents. In case of flooding, make sure copies of important papers, personal identification, insurance policies, social security cards and birth certificates are all in one place, ideally sealed in a plastic bag.

What can I bring on buses leaving from evacuspots?

- One carry-on sized bag for each person is allowed. The bag should be able to fit on your lap.
- You should bring any medicine you need. If you are a senior citizen, try to go to a Senior Center evacuspot. There are extra volunteers at these spots to help you.
- Bring important papers you may need and extra money.
- Bring something that can help us figure out who you are, like an ID card. If you don't have one, you will NOT be turned away.
- Pets, 20 pounds or less that fit in a carrier, should have an ID collar, leash, and medications. Your pet will be taken to an animal shelter nearby where you will care for it.

City-Assisted Evacuation (CAE)

RTA's Role in CAE

What is City-Assisted Evacuation?

City-Assisted Evacuation (CAE) assists people in Orleans Parish who cannot leave the city on their own during a mandatory evacuation for an emergency such as a hurricane. The RTA will give you a ride from an evacuspot to the Smoothie King Center where you will be evacuated out of town. The CAE will bring you back to the city when it reopens, and RTA will return you to your evacuspot.

What is an evacuspot?

Evacuspots are bus stops where you can get a safe ride out of New Orleans. These spots are marked by a statue that looks like a person holding one hand up.

Evacuteers will be wearing blue vests at all evacuspots and are there to assist with registration and evacuation information.

- **Five evacuspots** are designated for seniors as well as people with medical and mobility needs.
- **If possible, individuals with minor mobility or medical limitations** should go to a Senior Center Pick-Up Location. These locations provide air conditioning and extra staff to assist people with special needs.
- **If you can't get to an evacuspot because of medical needs**, you might be eligible to be picked up from your home. Call 311 to register for the Special Needs Registry.
