

Summary Table

Adopted December 19, 2017

Mission

Provide safe and dependable mobility services.

Vision

Become the preferred mobility provider in the region.

Goals

Earn Trust
Be Equitable
Prioritize the Rider Experience
Be Reliable
Connect to Opportunities
Support a Sustainable, Healthy Region

Objective	Strategy	Action Item	Phase	Measures & Targets
Goal: Earn Trust				
Be transparent in decision-making	Improve public information and rider communication	ET1: By 2018, provide monthly project updates at board meetings and online	2018-2022	 Average number of riders providing input for each outreach effort Target: +25% by 2022
		ET2: By 2018, provide updates for the SMP action items and measures at the annual State of Transit event	2018-2022	Average customer satisfaction rating for the overall quality of information
		ET3: By 2018, post an easy-to-understand Annual Budget Report online with funding and expenses by major categories and a list of planned projects	2018-2022	provided Target: Good or better by 2018
		ET4: By 2018, Board meeting summaries are posted online within one week of the meeting	2018-2022	 Average attendance at Riders Advisory Committee (RAC) meetings Target: 60% of RAC positions represented
		ET5: By 2018, create online dashboard that shares up-to-date performance data, including plan metrics, on-time performance, and ridership by route	2018-2022	 Average number of Disadvantaged Business Enterprise (DBE) firms attending meetings and outreach events related to upcoming projects
		ET6: By 2018, provide all open source data in a central location online and share with major data clearinghouses	2018-2022	for bid
		ET7: By 2018, public information and rider alerts are easily accessible online, on the mobile app, and at impacted stops • Average number of month	 Average number of comments and reactions to social media posts per month 	
		ET8: By 2018, annually update the SMP as needed with minor revisions, in conjunction with the annual budget process	2018-2022	
		ET9: By 2018, consider adding a transit rider to serve as an ex-officio member of the RTA Board of Commissioners that will also serve as the chair of the Riders Advisory Committee	2018-2022	
		ET10: By 2019, Board meeting video recordings are posted online within one week of the meeting and run on the public access TV channel	2018-2022	
		ET11: By 2019, customer complaints and requests can be tracked online or by phone and receive responses within three (3) days	2018-2022	
		ET12: By 2022, comprehensively update the SMP, preferably in coordination with the City's update of its Master Plan	2018-2022	
Make providing inpu	Make providing input easier	ET13: By 2018, change the time of Board meetings to an evening time ET14: By 2018, move public comment to the beginning of the agenda	2018-2022 2018-2022	
		ET15: By 2019, update Public Participation Plan to reflect emerging best practices and expand scope to provide guidance on public involvement in all activities	2018-2022	
		ET16: By 2019, create a customer service "one-stop shop" easily accessible by phone or internet. Integrate customer communications for all RTA services and maintain up-to-date information	2018-2022	

Objective	Strategy	Action Item	Phase	Measures & Targets
Goal: Be Equitable				
Provide mobility services in a just and fair manner	Encourage more affordable housing and community services in areas along High Capacity Transit lines	BE1: By 2018, begin working with local governments and partners to increase affordable housing units and community services in areas along High Capacity Transit lines	2018-2022	 Percentage of jobs in Orleans and Jefferson parishes that the average low-income household within RTA's service area can reach within 60 minutes by transit during peak period*
		BE2: By 2018, adopt guidelines with local governments to create land use regulations that encourage more affordable housing in new development in areas along High Capacity Transit lines and areas identified for Transit-Oriented Development	2018-2022	Target: 65% by 2027 Baseline: Approximately 30% in 2017 • Percentage of routes with a customer satisfaction rate of Good or better
	Make transit accessible for people with disabilities	BE3: By 2019, develop a plan to introduce more low-floor vehicles with ADA accommodations for all people with disabilites and ensure the website and mobile app reflect best practices for ADA	2018-2022	Target: 100% by 2022 Baseline: 81% in 2016
		accommodations BE4: By 2019, create an action plan to improve paratransit service	2018-2022	 Average customer satisfaction rate for paratransit service Target: Good or better by 2022
		BE5: By 2022, in accordance with legal agreements, provide at least one fully-accessible streetcar on the St. Charles Streetcar Line	2018-2022	*See technical report for methodology notes
		BE6: By 2022, in accordance with legal agreements, work with the City of New Orleans to inspect transit stops and develop a new ADA Transition Plan	2018-2022	
		BE7: In accordance with legal agreements, work with the City of New Orleans to ensure that all transit stops are ADA-compliant by 2031	2028-2040	

Provide mobility services that are safe, easy to use, and comfortable PR1: By 2018, introduce improved mobile app and scanners for bus, streetcar, and ferries PR2: By 2018, consider providing a regional pass between RTA and Jefferson Parish PR3: By 2022, comprehensively update fare structure, pass options, and related policies to incorporate emerging best practices PR4: By 2022, study and recommend smart card options for integrating fare passes for multiple transportation options and integrating transit passes into other payment cards, such as EBT cards, student IDs, and credit cards PR5: Implement smart card program Make services and schedules easier to understand Make services and schedules easier to understand PR6: By 2018, develop a plan for replacing transit tstop signs PR7: By 2018, develop a plan for replacing transit tstop signs PR8: By 2022, as part of network redesign, simplify schedules so they are more consistent throughout the day and predictable PR7: By 2018, introduce improved mobile app and scanners for bus, 2018-2022 PR6: By 2018, consider providing a regional pass between RTA and 2018-2022 PR6: By 2018, consider providing a regional pass between RTA and 2018-2022 PR7: By 2018, consider providing a regional pass between RTA and 2018-2022 PR7: By 2018, consider providing a regional pass between RTA and 2018-2022 PR6: By 2018, consider providing a regional pass between RTA and 2018-2022 PR7: By 2018, consider providing a regional pass between RTA and 2018-2022 PR6: By 2018, consider providing a regional pass between RTA and 2018-2022 PR6: By 2018, consider providing a regional pass between RTA and 2018-2022 PR7: By 2018, consider providing a regional pass between RTA and 2018-2022 PR7: By 2018, consider providing a regional pass between RTA and 2018-2022 PR6: By 2018, consider providing a regional pass between RTA and 2018-2022 PR7: By 2018, consider providing a regional pass between RTA and 2018-2022 PR7: By 2018, consider providing a regional pass between RTA and 2018-2022 PR7: By 2018, co	eetcar (n=700) that
easy to use, and comfortable PR2: By 2018, consider providing a regional pass between RTA and lefferson Parish PR3: By 2022, comprehensively update fare structure, pass options, and related policies to incorporate emerging best practices PR4: By 2022, study and recommend smart card options for integrating fare passes for multiple transportation options and integrating transit passes into other payment cards, such as EBT cards, student IDs, and credit cards PR5: Implement smart card program PR6: By 2018, create a ridership and education marketing campaign PR7: By 2018, develop a plan for replacing transit stop signs PR8: By 2022, as part of network redesign, simplify schedules so they are 2018-2022 Baseline: Good or better by 2022 Baseline: Good or better for bus, ferry, and streetcar	eetcar (n=700) that

		PR26: By 2019, study top 10 locations for RTA-related crashes for site- specific improvements	2018-2022	see previous page
		PR27: By 2020, begin implementing site specific improvements to improve top RTA-related crash locations	2018-2022	

Objective	Strategy	Action Item	Phase	Measures & Targets
Goal: Be Reliable				
Provide on-time and predictable service	Provide real-time information	BR1: By 2018, utilize new technology systems to improve dispatcher- operator communications and feedback	2018-2022	On-time performance for fixed routes* Target: 80% by 2020, 85% by 2022
		BR2: By 2018, implement bus and streetcar tracking for riders	2018-2022	Baseline: Approximately 75% in 2017
		BR3: By 2018, all planned service disruptions are communicated	2018-2022	
		online/mobile app and at the stop level at least 14 days in advance		On-time performance for paratransit trips
		BR4: By 2019, 80% of unanticipated service disruptions resulting in a	2018-2022	Target: 90% by 2022
		detour are communicated online/mobile app within 1 hour of RTA		Baseline: Approximately 87% in 2016
		being notified and at the stop level within 2 hours		
		BR5: By 2019, implement ferry tracking for riders	2018-2022	Percentage of customers using pre-paid fare media
		BR6: By 2020, implement paratransit tracking for riders in addition to traditional communication	2018-2022	Target: 80% by 2022
		BR7: By 2022, provide real-time arrival info at stops with more than 250	2018-2022	Average overall system speed
		boardings a day		Target: 13 MPH by 2022, 15 MPH by 2027
	Add transit priority treatments on	BR8: By 2019, begin working with local governments to make bus stops	2018-2022	Baseline: Approximately 10 MPH in 2016
	roadways and reduce conflicts with	highly visible in order to minimize illegal parking		
	automobiles	BR9: By 2020, study and identify potential solutions to reduce the delay	2018-2022	*Consider headway adherence as the measure of on-time performance for high
		from automobiles turning in front of transit vehicles in neutral		frequency routes
		grounds		
		BR10: By 2020, identify stops to move from near-side locations (before an	2018-2022	
		intersection) to far-side locations (after an intersection)		
		BR11: By 2021, begin working with the City of New Orleans to reduce the	2018-2022	
		number of turning conflicts between automobiles and transit vehicles		
		in neutral grounds		
		BR12: By 2022, identify potential dedicated lanes, High-Occupancy Vehicle	2018-2022	
		(HOV) lanes, signal priority improvements, queue jumps, and other		
		priority treatments for transit routes to minimize delay from areas		
		with high congestion		1
		BR13: By 2022, coordinate with local governments to create policies in	2018-2022	
		which roadway maintenance and construction projects include		
		relocation of stops and bus pads to far-side locations, in accordance		
		with Complete Streets policies		
		BR14: By 2022, pilot transit priority treatments along one or more transit	2018-2022	
		routes BR15: Work with local governments, the Regional Planning Commission,	2023-2027	-
		and the State to begin implementing dedicated lanes, High-	2023-202/	
		Occupancy Vehicle (HOV) lanes, signal priority improvements, queue		
		jumps, and other priority treatments for transit routes		

Objective	Strategy	Action Item	Phase	Measures & Targets
Goal: Be Reliable				
Provide on-time and predictable service	Retain and recruit good employees	BR16: By 2022, create a Career Pathways program for employees and ensure competitive pay and benefits	2018-2022	• On-time performance for fixed routes* Target: 80% by 2020, 85% by 2022
		BR17: Partner with Delgado and other colleges to create apprenticeship programs	2023-2027	Baseline: Approximately 75% in 2017
	Increase funding for services	BR18: By 2020, study traditional and innovative options for increasing funding for services, such as value capture. Include consideration of impacts to low-income households	2018-2022	• On-time performance for paratransit trips Target: 90% by 2022 Baseline: Approximately 87% in 2016
		BR19: By 2022, increase non-traditional funding sources, including private partnerships	2018-2022	Percentage of customers using pre-paid fare media
		BR20: By 2022, consider increasing fares	2018-2022	Target: 80% by 2022
		BR21: Seek additional dedicated funding sources	2023-2027	
	Increase pre-boarding payments	BR22: By 2018, deploy a marketing campaign to increase GoMobile 2.0	2018-2022	Average overall system speed
		users		Target: 13 MPH by 2022, 15 MPH by 2027
		BR23: By 2020, deploy Ticket Vending Machines at 25 high traffic stops	2018-2022	Baseline: Approximately 10 MPH in 2016
		BR24: By 2020, as part of Comprehensive Operations Analysis (COA),	2018-2022	
		develop a plan for increasing pre-boarding payments		*Consider headway adherence as the measure of on-time performance for high
		BR25: By 2022, pilot Ticket Vending Machines and/or other pre-boarding	2018-2022	frequency routes
		payment options along the entirety of one or more transit routes		
		with chronic boarding-related delay		
		BR26: Provide pre-boarding payment options for Paratransit	2023-2027	
	Reduce delays due to excessive	BR27: By 2018, develop a Transit Asset Management Plan	2018-2022	
	stopping, operator fatigue, and vehicle	BR28: By 2021, begin overhauling the bus fleet, replacing the majority of	2018-2022	
	breakdowns	aging vehicles and purchasing additional vehicles		
		BR29: By 2022, as part of a network redesign, adjust routes where	2018-2022	
		schedules are too tight and implement stop-spacing guidelines to		
		reduce redundant stops		
		BR30: By 2022, create autonomous vehicle pilot	2018-2022	

Objective	Strategy	Action Item	Phase	Measures & Targets
Goal: Connect to Opportunities				
Provide good access to destinations utilizing all transportation options available	Create fast, frequent service on major corridors in the region (High Capacity Transit)	CO1: By 2022, complete feasibility studies for upgrading and extending existing transit routes in RTA's service area into High Capacity Transit corridors: • Broad/Gentilly/Chef • Canal Streetcar • Rampart/St. Claude • St. Charles Streetcar • Tulane CO2: Complete feasibility studies for creating regional High Capacity Transit corridors: • Elmwood/Claiborne • Veterans/Airport • Westbank Expressway CO3: Implement the following High Capacity Transit projects:	2018-2022 2023-2027	 Percentage of jobs in Orleans and Jefferson parishes that the average household within RTA's service area can reach within 60 minutes by transit during all time periods* Target: 60% by 2027 Baseline: Approximately 30% in 2017 (peak times) Percentage of the service area population within one-quarter mile walking distance of a High Capacity Transit (HCT) line Number of passes sold to public high schools in the service area Target: 50% of student population by 2027 Number of passes sold to colleges and universities in the service area Target: 50% of the student population by 2027
		 Broad/Gentilly/Chef Canal Streetcar St. Charles Streetcar Tulane CO4: Implement the following High Capacity Transit projects: Rampart/St. Claude Elmwood/Claiborne Veterans/Airport Westbank Expressway 	2028-2040	Number of partnerships with major employers in the service area Target: 50% of employers with more than 500 employees by 2027 *See technical report for methodology notes
	Establish Select Routes	CO5: Upgrade existing transit routes to Select Routes: • Elysian Fields • General De Gaulle • Magazine • Riverfront Streetcar	2023-2027	
	Improve local routes and crosstown service	 CO6: By 2020, complete a new Comprehensive Operations Analysis (COA) with recommendations for a network redesign and capital needs for implementation. Consider equity impacts and impacts related to proposed High Capacity Transit (HCT) lines and potential major developments in the region such as the "opportunity sites" identified in the City's Master Plan CO7: By 2022, finalize implementation of network redesign CO8: By 2022, adjust crosstown service to meet COA-assessed demand 	2018-2022 2018-2022 2018-2022	

Objective	Strategy	Action Item	Phase	Measures & Targets
Goal: Connect to Opportunities				
Provide good access to destinations utilizing all transportation options available	Improve mobility Downtown	CO9: By 2019, pilot circulator service options in the CBD using existing small vehicle fleet CO10: By 2020, complete study for improved mobility options in the CBD and French Quarter as part of the Comprehensive Operations	2018-2022	 Percentage of jobs in Orleans and Jefferson parishes that the average household within RTA's service area can reach within 60 minutes by transit during all time periods* Target: 60% by 2027
		Analysis		Baseline: Approximately 30% in 2017 (peak times)
		CO11: Begin operating recommended French Quarter mobility improvements	2023-2027	Percentage of the service area population within one-quarter mile walking
		CO12: Begin operating recommended CBD mobility improvements	2028-2040	distance of a High Capacity Transit (HCT) line
	Provide quick connections between	CO13: By 2022, work with the State to re-introduce intercity bus service	2018-2022	
	distant areas in the region	between Baton Rouge and New Orleans		Number of passes sold to public high schools in the service area
		CO14: By 2022, coordinate with Jefferson Parish to provide regional express routes to CBD:	2018-2022	Target: 50% of student population by 2027
		Airport/Veterans/Canal St. corridor		 Number of passes sold to colleges and universities in the service area
		Elmwood/Claiborne corridor		Target: 50% of the student population by 2027
		Westbank Expressway corridor		
		CO15: Coordinate with St. Bernard Parish and St. Tammany Parish to	2023-2027	Number of partnerships with major employers in the service area
		provide regional express routes to CBD:		Target: 50% of employers with more than 500 employees by 2027
		Chalmette		
		Mandeville/Covington		*See technical report for methodology notes
		• Slidell		
		CO16: Coordinate with the State to implement the proposed Baton Rouge-	2028-2040	
		New Orleans Passenger Rail project		
	Expand water transportation options	CO17: By 2018, introduce faster, modern water transportation vehicles	2018-2022	
		CO18: By 2022, evaluate making the hours of operation for the Canal St-	2018-2022	
		Algiers ferry more consistent for all days of the week		
		CO19: Add water transportation from Canal St. to Gretna	2023-2027	
		CO20: Add water transportation from Canal St. to Poland Ave. in	2028-2040	
		conjunction with plans for a cruise terminal and redevelopment of		
		the Navy facility		
	Coordinate schedules for transfers	CO21: By 2022, as part of network redesign, fully integrate ferry schedule	2018-2022	
		with fixed routes	2010 2022	
		CO22: By 2022, as part of network redesign, fully integrate RTA schedules at	2018-2022	
		transfer areas with surrounding transit agencies		

Objective	Strategy	Action Item	Phase	Measures & Targets
Goal: Connect to Opportunities				
Provide good access to destinations utilizing all transportation options	Use on-demand services and flexible services for low-demand areas and times	CO23: By 2019, pilot first-mile, last-mile connections CO24: By 2020, pilot neighborhood circulators using small vehicles in New	2018-2022 2018-2022	Percentage of jobs in Orleans and Jefferson parishes that the average household within RTA's service area can reach within 60 minutes by
available		Orleans East, Algiers, and other areas where feasible CO25: By 2022, evaluate partnering with Transportation Network Companies (TNCs) for subsidized late-night, early morning, and	2018-2022	transit during all time periods* Target: 60% by 2027 Baseline: Approximately 30% in 2017 (peak times)
		weekend rides CO26: Evaluate how RTA can incorporate emerging transit options	2023-2027	Percentage of the service area population within one-quarter mile walking
	Encourage more housing, businesses, and community services in areas along High Capacity Transit lines	CO27: By 2018, create a Transit-Oriented Development (TOD) program and plan, including consideration of property owned privately and by other public agencies	2018-2022	 distance of a High Capacity Transit (HCT) line Number of passes sold to public high schools in the service area
	riigii Capacity Transit iiiles	CO28: By 2018, begin working with local governments to implement and encourage TOD with zoning overlays and other tools	2018-2022	Target: 50% of student population by 2027
		CO29: By 2022, work with regional organizations to use grant funding and private resources to encourage developers to build TOD in preferred areas with affordable housing	2018-2022	Number of passes sold to colleges and universities in the service area Target: 50% of the student population by 2027
	Partner with schools major employers, and social service providers	CO30: By 2018, begin working with major employers, emerging industries, healthcare providers, and large social service providers to encourage transit use and purchase discounted passes in bulk for their employees and/or customers	2018-2022	Number of partnerships with major employers in the service area Target: 50% of employers with more than 500 employees by 2027 *See technical report for methodology notes
		CO31: By 2020, work with public high schools to encourage student ridership	2018-2022	
		CO32: Work with colleges and universities to provide passes for students, paid for by student fees	2023-2027	
		CO33: Solicit major employers to sponsor transit routes and amenities	2023-2027	
	Expand the reach of High Capacity Transit and Select Routes	CO34: By 2022, work the City of New Orleans to expand their bike share system to include more locations near High Capacity Transit and Select Routes	2018-2022	
		CO35: Provide Park-and-Ride lots near High Capacity Transit and Select Routes	2023-2027	
		CO36: Work with partners to increase the number of car share stations near High Capacity Transit and Select Routes	2023-2027	
		CO37: Coordinate with local governments to identify and address major barriers to pedestrian access at high demand stops	2023-2027	
	Formalize coordination with other mobility providers in the region	CO38: By 2018, begin quarterly technical coordination meetings with mobility providers in the region and include representatives from the airport, Regional Planning Commission, local governments, and other agencies as needed	2018-2022	
		CO39: By 2022, develop cost and revenue sharing agreements to provide service across parish lines	2018-2022	
		CO40: Study options for making shared mobility in the region a seamless experience for the customer, including potential consolidation of services	2023-2027	

Objective	Strategy	Action Item	Phase	Measures & Targets
Goal: Support a Sustainable, He	ealthy Region			
Mitigate climate change and improve public health	Reduce RTA's environmental impact	SH1: By 2020, begin incorporating low or no emission vehicles into new vehicle acquisitions and vehicle replacement cycles (2021-2023 and 2026-2027) for both service and administrative vehicles SH2: Generate renewable energy, such as solar panels, on facilities	2018-2022	 Percentage of RTA's fleet powered by low or no-emissions vehicles Target: 75% by 2030 Baseline: 20% in 2017
	Support walkable, livable transit corridors	SH3: Implement all action items in the "Provide a more comfortable and pleasant rider experience" strategy	All	• Share of work trips made by transit in New Orleans Target: 20% by 2030
		SH4: By 2022, encourage transit-supportive development by working with local governments to waive parking requirements for development near frequent transit service	2018-2022	Baseline: 8% in 2016 • Percentage of households in the service area within 30 minutes by transit
		SH5: Work with regional organizations and business districts to use public and private funds to build enhancements to the pedestrian environment along major corridors	2023-2027	of a major healthcare facility during typical office hours Target: 80% by 2022
		SH6: Incentivize transit by working with the City of New Orleans to implement market-based parking pricing	2023-2027	 Percentage of households in the service area within 30 minutes by transit of a community health center during typical office hours
	Improve access to healthcare and recreation	SH7: Serve most major healthcare facilities with High Capacity Transit or Select Routes	2028-2040	Target: 80% by 2022
		SH8: Serve most community health centers with High Capacity Transit or Select Routes	2028-2040	 Percentage of households in the service area within 30 minutes by transit of a major park or recreational facility during typical hours
		SH9: Serve most major parks and recreational facilities with High Capacity Transit or Select Routes	2028-2040	Target: 80% by 2022
				 Average number of bikes on vehicles per day Target: 500 by 2030 Baseline: Approximately 235 in 2016
